

KEP LEADERSHIP VALUES ALL VOICES

The motivation behind everything we do at Kent Elastomer is continuous improvement. For us, continuous improvement means we're willing to question everything – every aspect of our processes and jobs. Are we doing it the best way we can? If not, how can we improve?

Our biggest tool to accomplish continuous improvement is Lean manufacturing practices. All team members are given Lean training within the first six months after being hired. This gives everyone the chance to have a voice in improving any of our processes and procedures, as well as their own job.

KAIZEN EVENTS LEAD TO LASTING LOVE

Some call it a match made in heaven – we call it a match made at KEP! It's not unheard of for our employees to find their life-long career AND spouse when they begin working here! With the festivity of Valentine's Day, we thought we'd take a moment to celebrate and share the stories of couples that have met on the job. It is a true honor to know that KEP is a part of their stories!

SERVICE YOU CAN SEE

Since joining our team in 2002, April Butcher has been known for her attention to detail. April excels at using this skill to ensure tight tolerances and meet the compliance demands for our extruded tubing. Not only does she help us continually raise the bar on what quality is for KEP, she also helps to ensure our products are the perfect solutions for our valued customers!

WE LOVE TO CELEBRATE OUR TEAM!

This month we are celebrating 9 employee anniversaries! Our team is full of love and gratitude as we consider their commitment to making KEP a positive place to work. Of this group, Cheri Thompson is passing three and a half decades at KEP!

ALWAYS WILLING TO LEND A HELPING HAND

Meet Luis Perez, an Operator/Tender that joined our Mogadore facility within the past year!

Luis's favorite part about KEP is that every day he is able to work with his team to achieve a common goal. He truly is all about teamwork and creating a positive work environment. You know it was a good day for Luis if he was able to make a contribution to his team and help others out!
