

Leader in product innovation. Superior customer service. Certified lean manufacturing.

EMPLOYEES OF THE YEAR

When we say we take celebrating our staff and their continued growth seriously – we’re not kidding! At the end of the year, we recognize and honor three employees who have continually gone above and beyond. Check out who earned these prestigious awards below!

SERVICE YOU CAN SEE

Mark Velka, Kent Maintenance Coordinator, is one of many people who allow KEP to be your most reliable supplier! We recognize that in our industry, we’re really only as reliable as our equipment. That’s why people like Mark are so vital to our operations – he works proactively to keep our machines well maintained. We care deeply about delivering our customer’s products on time, and Mark makes that possible!

We reliably serve many industries – from medical and surgical to sports and leisure. [Learn more about how we could be your newest trustworthy partner! >](#)

KEP IN THEIR WORDS

Customer feedback is truly invaluable to how we operate. We intentionally create systems that directly benefit the customer – open communication, trustworthy supply chain operations, employee longevity, and more – so we are always thrilled to hear our customer’s thoughts!

ALWAYS BUSY HELPING

Meet Tina Allen, a first-shift Tender at our Mogadore Extrusion facility! At work, Tina makes sure all lines are stocked with the needed materials, loads and unloads trucks, prints labels, helps with cleaning, and more!

HANDS-ON LEARNING

We were thrilled to host our marketing and communication partner, Full Spectrum Marketing, for a tour of all three of our facilities! Joe Williamson, Vice President of Sales and Marketing, showed Justine, Taylor, and Julia how our Kent, Mogadore, and Winesburg facilities function and work together. He even took them to lunch at Amish Door to give them the full Winesburg experience!

The women loved seeing our different processes – from extrusion and dip molding to assembly. We are always excited when our partners are able to tour our facilities, this hands-on learning is the best way to experience the KEP difference! [Contact us if you'd like a tour >](#)

JANUARY ANNIVERSARIES

We are over the moon to be celebrating 11 wonderful employees on their KEP work anniversaries! Every new year may bring a lot of change, but we always know we can rely on these steadfast team members. Each one of these people brings something important and unique to our company – and we couldn’t do what we do without them. Congratulations to David Martin on 34 years and Yolanda Brinkley on 30 years with KEP, we are so thankful for them and their hard work!
