The People Who Make the Products that Make a Difference

Supporting What Truly Matters

Not only are KEP employees incredibly hardworking, but they have hearts of gold. Every year, they donate a portion of their paychecks to the Ronald McDonald House Charities – an organization that provides housing for parents while their hospitalized children receive life-saving medical care.

We are incredibly proud that our employees and KEP as a company donated \$20,000 to the Ronald McDonald House. This is just one way that our teams exemplify their selflessness, by giving to an amazing organization that is there for families when they need it most.

Trusted Assembly Services

Teamwork

Adds Up – to Almost 250K Hours of Assembly!

Many people have heard of author Malcolm Gladwell's "10,000 Hours" – the theory that it takes time to develop great skills. When you trust KEP with your product assembly services, you get a team with nearly 250,000 hours experience working together – sharing expertise and practicing time and money saving efficiencies.

Cheri Thompson, Director of KEP Winesburg Operations, estimates that our Assembly Team has put in all these hours fulfilling project assembly tasks for our clients – for whom we also produce elastomer tubing and dip molded products

"I have been keeping records since 2012," Cheri says. "Based on 2,080 hours in a work year, that equals more than 110 full-time years of experience."

One key benefit of outsourcing your assembly line production services is that it can help you reduce costs. Most firms report that they experience at least a 15% decrease in the total cost by hiring another party to offer their services or produce goods.

There are many other benefits to choosing Assembly Team KEP. If your product requires assembly, our value added assembly service streamlines the manufacturing process. This allows you to get your products to market quicker – especially from our midwestern USA base, with easy distribution.

March Anniversaries

MARCH 2023 ANNIVERSARIES

LUCKY

To Have An Excellent Team!

Lisa Smith – Mogadore – 21 years on 3/11
Michelle Johnson – Mogadore – 19 years on 3/15

Abdallah Altruiki – Winesburg – 1 year on 3/3
Teresa France – Winesburg – 1 year on 3/14
Doll Sanchez – Winesburg – 1 year on 3/28

Our exceptional team is our lucky charm and key to success! This month we're celebrating 15 hardworking team members from each of our facilities with anniversaries. We are thankful for the 21 amazing years that **Lisa Smith** has spent at our Mogadore facility. Also, **Michelle Johnson** (Mogadore) and **Brock Lauvray** (Winesburg) have both been with our company for 19 years – what an accomplishment! Thank you to this crew of dedicated workers for all your efforts!

What Our Customers Say

KEP is proud to serve Dan J. and our other many satisfied customers.

"After our original producer went out of business, we discovered that KEP would be a good fit for us as a component supplier and for product assembly. From a Supply Chain standpoint, their impact has led to a more stable and consistent supply."

Dan J.
Motion and Control Industry Leader

Our Talented Team

Meet Rod Brady!
Tender
KENT | SINCE 2005

Meet Rod Brady, a Tender at our Kent facility who has been with us since 2005!

Rod works hard all week and then enjoys when Friday rolls around – a great time to reflect on all that was accomplished! For Rod, KEP runs in the family as his wife works at our Winesburg facility! Together they have 4 kids, ages 10 to 33 years old.

When he isn't at work, you can probably find Rod spending time with his family, golfing, bowling, or playing corn hole. Every year he looks forward to spending time in the Outer Banks with loved ones!
