The People Who Make the Products that Make a Difference

## NEW Product Launches

**Kent**  
INNOVATING THE FUTURE OF HEALTHCARE

### Biopharma Launches

Tubing designed to meet the stringent demands of the biopharmaceutical industry.

After years of careful planning and accreditation, KEP has begun producing biopharmaceutical tubing that is meticulously designed to meet the stringent demands of the biopharmaceutical industry.

By doing this, KEP changes the industry landscape by offering an affordable, game-changing drop-in replacement to other leading biopharmaceutical TPE and silicone tubing products on the market today.

Most interested in our new product offering are global customers who require tubing for fluid transfer systems, peristaltic pump applications, cell culture systems, and pharmaceutical filtration.

## Evolve with KEP!

### Meet Bethaney Mucci

HR Manager

*"I am excited to be a part of building the HR function at Kent Elastomer to help grow the company & support the people."*

**KENT ELASTOMER PRODUCTS, INC.**

KEP welcomes Bethaney Mucci, *our very first HR Manager!* Bethaney will be in charge of building KEP's HR department to support company growth and, most importantly, to help our people. With experience in the manufacturing and software industries, her passion for the environment and being on-site with the teams brought her to KEP.

"I'm looking forward to helping the leaders make decisions that are mutually beneficial for the employees and the company's success. Ultimately making the company better and contributing to employee satisfaction," said Bethaney.
