Happy New Year!

Happy New Year!

Happy 2024 from our KEP family! We hope you enjoyed the holidays with loved ones and that your new year is off to a prosperous start.

What are you looking forward to in 2024? If you're looking for a great tubing, custom dip molding and final assembly partner, [let's chat!](#)

Saying Goodbye to Bob Oborn

KEP Employees Say Goodbye to President Bob Oborn

KEP Employees recently participated in a heartfelt video to say goodbye to long-time President Bob Oborn. Testimonials about Bob's tenure and character reveal the compassionate human element of KEP. We care about each other, and we strive to do our best!

Under Bob's leadership, bonds were formed, goals were achieved and leaders were developed. Although business can be cold and unforgiving, it can also be a uniting force motivating people to be their best. The below words reflect KEP's core values and vision, lived out in Bob's presidency.

"Congratulations! I can't thank you enough for your 36 years of friendship, and especially all the mentoring that you provided me during that time. Following you in what seems like every role you were in prepared me to lead such a tremendous team here at Kent Elastomer," said Incoming President John Danes.

Anniversaries

We're starting the new year with gratitude by celebrating our wonderful employees on their KEP work anniversaries! Every new year brings new changes, but we can always depend on these team members. Each one of these employees brings something important and unique to our company – and we couldn't do what we do without them. Congratulations to David Martin for 35 years, Shelly Lucas for 20 years, Matthew Life for 10 years and Nicole Casada for 5 years with KEP. We are so thankful for you and your hard work!

Meet The Team

Meet Jermaine Moxley Jr.

"Remember to be on time and do your part!"

Since 2021 - Custom Dip Operator

Meet Jermaine, KEP's Custom Dip Operator! Jermaine has worked at our Kent facility for the past three years, and we are so thankful to have him on our team!

In his role at KEP, he dips parts in various compounds and then strips them off the forms after they cure. We are glad to have him play this vital role in our process! According to Jermaine, the best day at work is every time he clocks in. We love that positive attitude!

What Our Customers Say

"We've had a great experience working with KEP. It feels more like family than business. If you get a chance to work with them, you should take it!"
